What's Trending?

Bot Account Recognition

- Username for the Account
- Check if the account is verified or not?
- Check the no. of total tweets
- Account's recent tweets
- Check the spread of those tweets
- If the account is verified or tweets are low in number, or the spread is very wide return not Bot.
- Otherwise check if there is large repetition in the recent tweets.
- If the large number of tweets is made on one topic in a short time with less uniqueness.
- Check the age of account
- Check for profile analysis. Bot accounts are likely not to have Profile pictures and other data.
- Followers to Following ratio
- A bot account may be tweeting/retweeting too many posts per day than the normal user may be.
